Date: February 8, 2021

From: Shauna C. DeMarco, Superintendent of Tenafly Public Schools

Regarding: TENURE TRACK FACULTY/STAFF

Requesting: Your Input on Faculty/Staff Performance by Friday, March 5, 2021

Annually each Spring, recommendations are made to the Board of Education regarding the continued employment of pre-tenured faculty members in the Tenafly Public Schools.

While these recommendations are primarily dependent upon observed performance and administrators' evaluations, parent input is also of value. At this time, we offer parents the opportunity to share with us their feedback on any of these non-tenured faculty members based on their experiences with them as educators of their children.

Currently the Tenafly Public Schools have **79** faculty members who are of non-tenured status. In order to be considered for tenure, all teaching and most administrative faculty must demonstrate successful job performance in a school district for four (4) years. Such performance factors and indicators are based on the related New Jersey State legislation, known as Achieve NJ, which was established in 2013.

When employing educators and later granting tenure to faculty members, we seek the following:

- Demonstration of exceptional teaching and leadership skills
- Displayed commitment to providing safe and caring environments that are rich in appropriate and stimulating educational experiences which foster each student's academic, social and emotional growth
- Constant and consistent pursuit of professional growth made evident through learning, the ongoing establishment of collaborative relationships with colleagues, and the inherent desire to remain productive, innovative, inspiring educators throughout the duration of their service in our schools.

Parents who wish to share any information about the performance of any faculty member(s) listed on the following pages are encouraged to submit their comments to me on or before March 5, 2021. Once again, your input is valued and most welcome to this process.
